Provide cardiopulmonary resuscitation (CPR)

training—where knowledge + health meet

MA Skills Training is a business unit of Australian Medical Association (South Australia) Inc., which is the peak representative body for the medical profession formed in 1879. AMA Skills Training is a Registered Training Organisation (RTO No. 40880) under ASQA Standards for Registered Training Organisations (RTOs) 2015.

We were established to develop and deliver training specifically for the Primary Health Care sector and to issue parchments/certificates and statements of attainment for nationally accredited qualifications and units of competency.

Our delivery staff include members of the Health workforce who are practitioners with extensive and current experience in the Health Industry.

Unit Description

This CPR unit describes the skills and knowledge required to perform cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) Guidelines.

This unit applies to all persons who may be required to provide CPR in a range of situations, in both the workplace and community settings.

The Training covers

- How to respond to an emergency situation
- How to perform CPR
- Using an Automated External Defibrillator (AED)
- How to communicate details of the incident
- Review the incident

Students MUST successfully complete theory requirements on-line before they can attend the practical session.

Practical session is held at Level 1, 175 Fullarton Road, Dulwich, SA, 5063.

Note: It is a requirement of this unit that a demonstration of 2 minutes uninterrupted CPR on both an adult and a baby manikin is satisfactorily completed

COST

\$70.00

Bookings are essential
